EXPOSITION **TCD**

about us

EXPOSITION **TCD** is a Quebec based manufacturer and service provider for the exhibition and display business. Active since the late 40's, EXPOSITION **TCD** develops and manufactures modular and custom made exhibition booths and extends installation, tear down, warehousing and logistic services for products we create. Mandates are given for various events in North America and Europe.

With the same energy and passion, EXPOSITION **TCD** develops for permanent exhibitions, museums and interpretive centers, exhibits, display cases, creative elements and interactive modules incorporating the latest innovations available.

As your project's partner, EXPOSITION **TCD** guides you around marketing challenges, provides a complete array of exhibition solutions, respects your budget and timelines, suggests simple and innovative solutions and proposes large manufacturing capabilities and work performed meticulously.

your trade show partner

You must make the most of your participation at fairs and exhibitions, and you expect a high return on your investment. The EXPOSITION **TCD** team is aware. This is why we offer a wide range of business solutions, from ultra-portable to portable, large format stands and custom made projects. For the more daring, the latter solution designed by our team or from your designer's sketches is sure to become the highlight of the event you are attending. Create an impact, stand out, dare! Our exhibition solutions offer unparalleled value.

Have fun creating the perfect illusion, thanks to the advices of our team, both for the design of your booth or the planned marketing strategy. Surprise visitors with visual sham that recreate the experience and the world of your brand.

Surprise! Set your image out from the crowd. Captivate your customers, they will talk about your product and your booth, and perhaps they will await curiously year to year changes. They will congratulate you for your good idea!

ultra-portable solutions

Easy to install, environmentally friendly and economical, our ultra-portable solutions include banners/counter kits and clever graphic back walls.

The banners/counter kit is the simplest solution any way you look at it; ingenious “all-in-one” stand with two banners and structure all contained in a discrete rollaway suitcase easily converted into a counter.

Our ultra-portable graphic back walls are collapsible stands with a lightweight and flexible printed textile visual, that creates a marketing impact in just a few seconds. They have a virtually invisible structure without connections, and a dye-sub printed fabric in stunning color rendition. Serving the image of your company and unleashing your creativity, these walls are available in straight and curved versions and in different formats.

Backlit freestanding panels are also available.

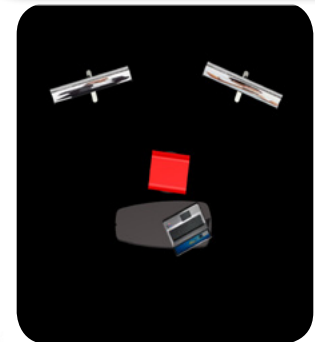

And voilà! You're on the road to promote your image!

K-11

- 80" h x 43" w x 5" d

Option

- Furniture selection (p.29 and 32)

portable solutions

Made with robust yet light aluminum profiles, washable and durable stretched fabrics printed with a high-resolution sublimation process, our **ID** serie leaves all the space to your image and your message. It is the ultimate in marketing exposure for those who do not yet need to move towards a custom made solution.

Let your images speak; bring your brand to life. With the **ID** serie, it is not the structure that you will notice, since it is invisible, but your message. The design flexibility and the print quality inherent to the stretched fabric walls allow to create distinctive universes and surprise visitors by playing sham. Mahogany moldings, baroque wallpaper, lush forest, alpine peak, exotic oceanfront, false textures, faux finishes. The only limits to the **ID** collection will be your imagination! Intrigued, people will approach your stand and will not believe that they're facing fabric.

Washable, durable and modular, **ID** serie stands require no tools or specialized expertise to assemble or disassemble them. Stackable shipping crates allow sections of stands to be crated together. All **ID** serie stands are available for purchase or rental.

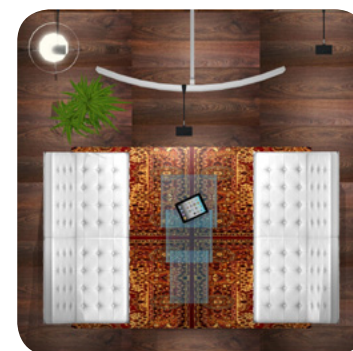

S10-11

- Freestanding 10' stand showcasing a curved structure that can be used for storage. Create the perfect illusion with a back wall visual sham!
- Storage / transport crate

custom made solutions

When your marketing plan requires a serious investment for exposure or the prestige of your brand requires a great deal of audacity, custom made solutions designed by our team or from your designer layouts, will attract all eyes and praise and certainly become the highlight of the event you are attending.

A collaborative effort

Throughout the process, our team including draftsmen, technical designers, project managers and craftsmen, offers the required expertise to provide efficient and inspired solutions.

Solutions for every environment

Mandates entrusted to us include various business environments such as stands for fairs and exhibitions, creative furniture, showrooms, decorative elements, displays, showcases, kiosks, signage and promotional accessories.

Listening to

The actual identification of your needs and expectations is central to each project and our team is recognized for accuracy and meticulous finish of its achievements.

Objective accomplished

In 2010, Rio Tinto Alcan has trusted EXPOSITION **TCD** for the fabrication and installation services related to its participation in an international trade fair in Germany.

This inviting space is composed of modular design elements that highlight the visual signature and company core messages.

The island exhibit continues to steal the show with visitors and allows company delegates to establish contact with key people.

Success Story

The nomadic store modular kiosk of the Fédération des producteurs de lait du Québec is bright, stylish, contemporary and effective.

It perfectly integrates tasting stations, information hub, contextual signage, refrigerators, freezers, sink, microwave oven and electronic cash.

You can visit the nomadic store during major events and while touring commercial spaces across the province. It is with utmost diligence and efficiency that the EXPOSITION **TCD** team handles logistics related matters for all venues.

Trust us also to handle your custom made projects; we work together to enhance your brand image.

Perfect integration

During its participation at international trade fairs in the mining sector, the Caterpillar booth stands up to surrounding gigantic machinery! Indeed, it has impressive proportions and five 65-inch monitors making the most of augmented reality technology and touch interactions.

Designed in collaboration with a marketing agency and a media company, this kiosk achieved all its objectives and EXPOSITION **TCD** has been tasked to design smaller versions perfectly suited for touring smaller events.

accessories

Once your choice's made from ultra-portable, portable or custom made solutions, equip your stand with accessories that meet your needs and add even more personality to your decor.

Our range includes stools, chairs, benches, portable or custom made counters, lights, carpet, linoleum, printed carpets, flooring, printed floor graphics, display modules, digital tablets' stations.

Contact one of our EXPOSITION **TCD** advisors for options and original ideas.

technical services, transport & marketing support

Whether for installation, tear down, storage, transportation or maintenance of your booth, you can, if necessary, rely on a full range of exhibition services. Let the EXPOSITION **TCD** experts handle all technical responsibilities related to your presence at trade shows, fairs, corporate events, launches or showroom set-up.

At the crossroads of major highways, the Pierre Elliott Trudeau International Airport and the Port of Montreal, we are able to provide logistic services required around travelling and permanent exhibitions. With a team of about 30 employees, EXPOSITION **TCD** relies on its flexibility and attention to detail to meet the specific requirements of each project

Effectively manage upstream all aspects of your participation at a fair or exhibition, enjoying our marketing expertise and our expert advices. The EXPOSITION **TCD** team first identifies your vision and business objectives, and then helps you to develop a strategy. Your stand is finally selected based on this strategy and the brand image you want to project. Our different solutions bring to the forefront your message, insuring maximum return on your investment.

dye-sub printing

Sublimation is a physical transformation by which a body passes directly from solid to gaseous state. Applied to fabric, it dyes fibers directly and offers a contrast, intensity and unmatched color depth.

Our sublimation technique also greatly improves the consistency and color resistance over time and, is more environmentally friendly than other printing processes used since it uses water-based solutions with no solvent and odor.
